

## GLAZED TILE SPECIFICATION GUIDE

CasaSYMARI has its core strength in design, and color theory. We pride our wide knowledge of colours. We are always ahead of different colour expressions. A colour reaches its maximum when the pigment has been developed to the highest emotional resonance for that colour. There is so much more to our work than fine raw materials and high pigment loads. At New Terracotta, we are forging together the right balance of pigment, glaze, history, science and emotion. Drama On The Dance Floor combined with The Lottie Dottie Collection has 35 subtle, luminous, semi-transparent, deep, metallic colours. Each of them has a historical and artistic background.
